Class Two: Data Ethics

During the second class, we'll study Data Ethics. Pay attention to the discussion of ethically significant harms and benefits, common ethical challenges and our obligations to the public.

1. Read Shannon Vallor, *An Introduction to Data Ethics*, Markkula Center for Applied Ethics, Santa Clara University (file attached).

    Prepare to discuss:

    a. Fred and Tamara Case Study (p. 13-14),
    b. Facebook Case Study (p. 21-22),
    c. OkCupid Case Study (p. 33-34).

    Questions for discussion are set forth in the short cases.

2. Optional reading: short article by Luciano Floridi & Mariarosaria Taddeo, "*What is Data Ethics*," Phil. Trans. R. Soc. A 374 (2016) (file attached).

3. Prepare to discuss ethical issues presented by the Perfect Grocery case study (file is attached in the first week's reading).
